

Fire/Plant Bowl

Item-no.: 223-515

Contents: Iron bowl with feet made from Douglas fir, three hanger bolts

The robust iron bowl may be used as a planter or fire pit. The integrated collector for water or ash will keep your patio floor clean and makes disposing of residues easy.

The hanger bolts with one-sided wood thread may be used on soft surfaces to secure the fire pit and stabilise the product.

The wood base possesses a natural finish and is therefore only weatherproof to a limited extent.

We hope you enjoy our product!

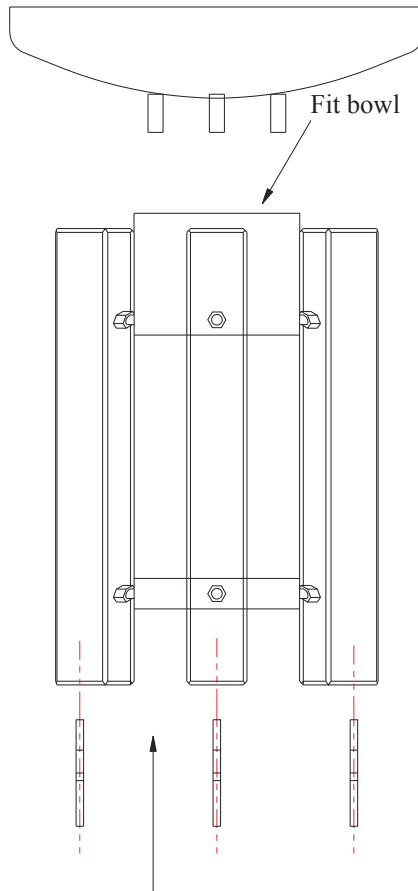

Safety instructions and warnings:

- The fire pit must be placed on a level, non-slip and safe surface.
- It may only be used as a fire pit when it has been secured in the ground.
- Do not use in enclosed or covered spaces!
- Do not use under sunshades or umbrellas or in proximity to easily flammable objects (risk of fire!).
- Watch out for flying sparks.
- **WARNING!** The fire pit will get very hot and may not be moved when it is in use or when it is hot!

- Only use wood or charcoal with the fire pit.
- Only used permitted solid or liquid fire lighters that possess the corresponding approval marks!
- **CAUTION!** Do not use such easily or highly flammable liquids as spirits, petrol or similar to light or relight fires! Risk of deflagration and explosions! Only use fire lighters in compliance with EN 1860-3!
- Keep fire lighters out of reach of children.
- **WARNING!** Keep children and pets away.
- Only clean the fire pit when it is cold.

Please observe local regulations such as those issued to prevent forest fires prior to use. **Only intended for household use.**

Assembly instructions

Screw in hanger bolts as required.
