

Installation instructions

1. You need four holes in your wall; firstly you will attach the newspaper compartment with the provided dowel screws. (hole: 340 x 180 mm)
2. Subsequently you need to hang the mailbox in the newspaper compartment and let it slide downwards.
3. Inside the mailbox you now need to fasten two more screws, which you will find enclosed. (M6x16)
4. You can now lock your mailbox with the provided keys.
5. Done!

Care instructions

1. Your mailbox is out of stainless steel. To prevent corrosion damages please avoid the permanent contact with other metals.
2. You can easily clean all powder coated mailboxes with a cotton cloth and water.
3. The mailbox out of polished stainless steel will thank you, if you clean it with a stainless steel cleaner a few times a year. Should there be a rust film because of unfavorable external influences, it can be removed through intensive rubbing.
